The Janisson family have been growing grand cru quality grapes in the village of Vezernay for 5 generations. Manu Janisson is now establishing a serious family house based on top quality vineyards and perfection in their state of the art winery. There is the greatest attention to detail at every stage and the resulting bottles are of exceptional quality. Extra bottle age before release and only using Chardonnay and Pinot Noir ensures levels of mellowness and complexity usually associated with the top crus. Chosen by the McLaren GT race team as their official Champagne, so try some before they pour it all over themselves
